

113. A method as in claim 112, wherein the step of selectively transmitting includes:
at the second unit, generating the second magnetic field along an axis that is 45
degrees with respect to one or more of the at least two transducers.
-

REMARKS

Claims 1-98 were previously pending in the present reissue application. Claims 99-113 are new claims being submitted for examination in this reissue application. Support for the new claims can be found in the accompanying document entitled STATEMENT OF STATUS AND SUPPORT FOR CLAIMS 99-113.

Following entry of this Supplemental Preliminary Amendment, Claims 1-113 will be pending in the present reissue application.

CONCLUSION

It is believed that all claims are in condition for allowance, and it is respectfully requested that the application be passed to issue. If the Examiner feels that a telephone conference would expedite prosecution of this case, the Examiner is invited to call the undersigned Attorney at (978) 341-0036.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
